THE RAVEN PROJECT

DOS CD-ROM – Quick Start Card

System Requirements

486 DX2 66 or higher
8MB RAM
520K free conventional and 6350 free XMS (high) memory
2X CD ROM drive
MS-DOS 5.0 or higher
DOS (or Windows® 95 running in DOS mode)
Sound Blaster or 100% compatible
Gravis Ultrasound in native mode
Minimum 1 MB free hard drive space
Gravis Phoenix, Firebird, and other joysticks supported
VGA video card and monitor

Installing and Setting Up The Raven Project

1 Insert the disc 1 into your CD-ROM drive, label side up.
2 Log to your CD-ROM drive. For example, type D: and press ENTER.
Note: If your CD drive is another letter, such as E:, substitute that letter. For example, type E: and press ENTER.
3 Type INSTALL and press ENTER.
4 At the Installation Screen, select your Hard Disk Installation Size. Click SMALL, INTERMEDIATE, or COMPLETE.
5 If necessary type the letter of the hard disk you want to install the program to, followed by a colon, in the INSTALLATION DRIVE FIELD, and press ENTER.
6 Click Install.
7 At the Setup Screen, select which type of sound card you have, and select the appropriate settings.
8 If you want subtitles for the videos, click the SUBTITLES checkbox.
9 If necessary type the letter of your CD drive, followed by a colon, in the CD ROM DRIVE field, and press ENTER.
10 Click OK. The installation program will copy and configure the necessary files to your hard disk.

Running The Raven Project

1 At your DOS prompt, type CD\RAVEN and press ENTER.
2 Type RAVEN and press ENTER.
3 In the Hanger, click BRIEFING to find out about your first mission.
4 After hearing the details of your mission, you are returned to the Hanger. Click START MISSION.
5 To exit, press ESC to abort the mission, and click EXIT TO DOS in the Hanger.
Note: See your manual for the controls to use for each mission.

Note:

1 In certain situations after running Raven, you may encounter problems running Windows, or other applications. If problems do occur, please reboot your computer and attempt to re-access the application.
2 This product DOES NOT support compressed hard disks.

TECHNICAL SUPPORT

Before calling for technical support, please have the following information ready:
Detailed description of your problem, and the exact steps described in order of occurrence so we can try to reproduce the problem.
Name/make/model/speed of your computer.
Copy of your CONFIG.SYS file.
Copy of your AUTOEXEC.BAT file.
Name/make/model of your sound card.
Name/make/model of your video card.
Print out of the MS-DOS Check Disk command (type CHKDSK and press Enter).
Name/make/model of printer you are using, and whether it is color or black & white.
Version of Windows and MS-DOS you are using.
For Windows and MPC products, we also need a copy of your WINDOWS.INI and SYSTEM.INI files; both of which are in your Window subdirectory.
